## What is Tungstenite?

Tungstenite is a substantially strong, hard wearing coating that is applied to the reverse of the bath, making it as durable as a cast iron bath but with the warmer and easier to maintain finish of acrylic.

## What are the benefits?

- Much stronger than acrylic.
- Retains heat for approximately 30 minutes longer than acrylic.
- Improved bath stability and rigidity.
- Increased durability resulting in a longer lifespan.

Look out for the Tungstenite logo
